B. ASSESSMENT OF OPERATIONS IN 2025

1. Positive Aspects:

- Compared to the targets assigned by the 2025 Annual General Meeting of Shareholders, the Company performed well, achieving 71% of the business plan. Although profit did not reach the expected proportion due to higher-than-anticipated expenses, it still exceeded the profit recorded in 2024, demonstrating sustainable growth in business operations.
- Capital mobilization and investment activities in 2025 were highly successful, with total equity increasing to VND 1,136,042,200,000, equivalent to 136% of the annual plan. With additional working capital, the Company accelerated construction progress and site clearance for new projects during the year, which are expected to generate significant profits from 2026 to 2028, particularly key projects such as HERA Quy Nhon and the Urban Residential and Commercial Service Area in TDP 17, 18, Him Lam Ward, Dien Bien Province.
- Alongside business growth, the Company has focused on enhancing the capacity of its management and executive teams, as well as strengthening its workforce to meet the urgent demands of ongoing and upcoming projects. In 2025, the Company recruited additional personnel and promoted capable staff to managerial positions, creating a favorable working environment that enables employees to maximize their potential and supports sustainable growth in the years ahead.

2. Limitations:

Due to significant nationwide changes in 2025, including provincial mergers and the transition of the administrative system from a three-tier to a two-tier model, the Company encountered certain difficulties in administrative procedures. This led to delays in site clearance for projects. In addition, some capital mobilization and business activities during the year did not progress as expected, resulting in higher-than-planned interest expenses. These issues were largely attributed to changes in approval regulations and authority under the new two-tier system, as well as the need to repeatedly verify documents following address changes after the mergers. Entering 2026, the Company expects these constraints to be resolved and is confident in achieving its set targets for the year.

C. Business Plan and Goals for 2026

1. Business Production Plan:

Unit: VND

No.	Content	Unit	2025 (Actual)	2026 (Plan)	Ratio of 2026 plan to 2025 actual (%)
1	Total Revenue	VND	1.508.970.503.527	2.948.644.970.000	195%
2	Profit Before Tax	VND	28.565.244.348	140.485.868.059	492%
3	Corporate Income Tax Expense	VND	5.777.072.055	28.100.000.000	486%
4	Profit After Tax	VND	22.788.172.293	112.385.868.059	493%
5	Charter Capital	VND	1.136.042.200.000	1.136.042.200.000	100%
6	Expected Dividend Distribution	%	0	10	-

- With outstanding growth in trading activities with partners, together with capital arranged by the investor of The Sailing Quy Nhon project, the Company is confident in setting ambitious targets for 2026, aiming for a breakthrough in revenue and strong profit growth. With projected revenue exceeding VND 2,900 billion, the Company expects to generate nearly VND 1,000 billion from construction activities, while maintaining strong growth in plastic resin trading with partners, targeting VND 1,900 billion in 2026.

- In addition to achieving its revenue targets, profit growth is expected to come not only from increased output but also from improved profit margins across business activities, particularly in trading. In 2026, the Company plans to expand into import-export trading, which is expected to yield higher margins compared to domestic trading. Furthermore, investments in financial products and proptech real estate are expected to generate higher returns than the previous year, reflecting the effectiveness of investment activities carried out in 2025.

- To achieve these targets, alongside growth in its core construction activities, the Company is oriented toward transforming its development model into a multi-sector integrated ecosystem. The strategic growth pillars will include proptech real estate, industrial real estate, and import-export activities, with the aim of enhancing operational efficiency and delivering sustainable long-term value.

2. Solutions for implementing the 2026 plan:

Based on the business performance in 2025 and the implementation plan for 2026, the Board of Management proposes the following solutions to achieve the 2026 plan:

a. Implementation of core business activities:

- Focus all resources on accelerating construction progress and ensuring timely completion of awarded and ongoing projects;
- Establish joint ventures and partnerships with industry peers to participate in large-scale bidding packages with high construction volume and technical requirements;
- Collaborate with domestic and international partners to expand deeper and broader participation in the plastic resin trading value chain, thereby generating higher returns from trading activities for the Company.

b. Cost control:

- Strictly control the quality of input materials, as well as construction progress and quality;
- Strengthen labor safety management and improve working discipline of both office staff and on-site personnel;
- Enhance monitoring and recovery of receivables, while strictly controlling debt recoverability from contract signing to completion.

c. Investment activities:

- Focus on researching new proptech real estate products and appropriate financial investment products aligned with the Company's cash flow conditions;
- Cooperate with strategic partners to invest in industrial real estate, entering the logistics and industrial property management sectors;
- Invest in corporate branding in line with the new orientation and vision, ensuring effective communication and fostering a positive image among partners, businesses, and individual customers;
- In parallel with business development, the Company will carry out community-oriented activities, contribute to environmental protection, and implement employee welfare programs, ensuring fulfillment of its social and community responsibilities.

The above constitutes the report on the 2025 business performance, the 2026 business plan, and the investment orientation of the Board of Management. We respectfully submit it to the General Meeting of Shareholders for approval.

Sincerely,
