- *Pursuant to the Charter of MST Investment Joint Stock Company (**the "Company"**);*
- *Pursuant to the Company's business needs.*

In order to enhance its financial capacity and restructure its capital, the Board of Directors (**the "BOD"**) and the Executive Board of MST Investment Joint Stock Company (**"MST"**) have identified an increase in charter capital as one of the key financial solutions in the Company's 2026 and 2027 business plans. The capital increase through a share offering is intended to supplement the Company's equity capital and provide resources for the Company to repay bank loans and fulfill other debt obligations, thereby reducing financial pressure, improving its capital structure, enhancing its autonomy in business and production activities, and establishing a stable and sustainable financial foundation for the Company's future development.

On this basis, the BOD respectfully submits to the General Meeting of Shareholders (the **"GMS"**) for consideration and approval the Plan for the Offering of Shares to Increase the Company's Charter Capital, with the following details:

I. PLAN FOR THE OFFERING OF SHARES TO INCREASE CHARTER CAPITAL

Treasury shares, if any, shall not be entitled to exercise the rights to purchase additional shares offered to existing shareholders.
- Subscription ratio:	**100:88** (each shareholder holding 1 share shall be entitled to 1 right, and every 100 rights shall entitle the

holder to purchase 88 new shares).

- Rounding principle: For any fractional shares arising from the exercise of subscription rights, to ensure that the number of shares issued does not exceed the number of shares offered, the number of shares each shareholder is entitled to purchase shall be rounded down to the nearest whole share.

- Eligible investors: The additional shares offered to existing shareholders shall be freely transferable.

Existing shareholders holding shares that are subject to transfer restrictions shall still be allocated subscription rights. The additional shares purchased through the exercise of such subscription rights shall not be subject to transfer restrictions.

- Subscription ratio: Existing shareholders whose names appear on the shareholder list as of the record date for the allocation of subscription rights shall be entitled to transfer their subscription rights to other parties within the prescribed period. Each subscription right may be transferred only once.

Subscription rights may be divided into smaller portions for transfer to multiple investors, as agreed between the parties. The transferor and the transferee shall mutually agree on the transfer price and payment terms.

- Rounding principle: The book value of MST Investment Joint Stock Company's shares as of June 30, 2026, according to the Company's reviewed semi-annual financial statements for 2026, was **VND 10,452 per share.**

The average closing price of MST shares over the 10 most recent trading sessions, from September 28, 2026, to October 9, 2026, was **VND 9,130 per share.**

Determination of the offering price: The Company's shares are offered to existing shareholders, taking into account the preferential nature of the eligible recipients, the stock market conditions, the Company's capital requirements, the market value and book value of its shares, as well as an analysis of the potential price dilution. Accordingly, the BOD proposes an offering price of VND **10,000** per share for the offering to existing shareholders.

- Transfer restrictions:

The remaining shares shall include: (i) shares that existing shareholders decline to purchase, in whole or in part, during the offering; (ii) fractional shares arising from rounding down the number of shares that existing shareholders are entitled to purchase based on the subscription ratio; and (iii) the difference between the total number of shares registered for offering (100,000,000 shares) and the total number of shares actually offered in accordance with the subscription ratio. The GMS authorizes the BOD to proactively decide on a subsequent offering of the above-mentioned remaining shares to other investors at an offering price of VND 10,000 per share, equal to the offering price applicable to existing shareholders.

The GMS authorizes the BOD to seek and select investors to purchase the remaining shares, if any.

The above-mentioned remaining undistributed shares, when subsequently offered to investors pursuant to the BOD's decision, shall be subject to a transfer restriction for one (1) year from the closing date of the offering.

The distribution of shares that remain unsubscribed to other investors must satisfy the conditions prescribed under the Law on Enterprises 2020, the Law on Securities 2019, Decree No. 155/2020/ND-CP, Decree No. 245/2025/ND-CP, and other relevant laws and regulations, including but not limited to the following conditions:

- Comply with Clause 2, Article 195 of the Law on Enterprises 2020: "A subsidiary is not permitted to invest in or purchase shares or contribute capital to its parent company. Subsidiaries of the same parent company are not permitted to simultaneously contribute capital to or purchase shares in one another for the purpose of cross-ownership."

- Ensure compliance with the offering conditions stipulated in Article 42 of Decree No. 155/2020/ND-CP dated December 31, 2020, issued by the Government detailing the implementation of a number of articles of the Law on Securities.

Upon expiry of the statutory distribution period, including any extension thereof, if applicable, any shares that remain undistributed shall be cancelled, and the BOD shall issue a decision to close the offering.

- Transfer of subscription rights:	Not applicable.
- Principles for determining the offering price:	The offering is expected to take place during the period from 2026 to 2027, following the issuance by the State Securities Commission of the Certificate of Registration for the Public Offering of Additional Shares.
- Treatment of remaining shares:	The GMS authorizes the BOD to assess the potential dilution of the reference price on the ex-rights date, earnings per share, book value per share, etc., at the time of implementation of the offering, and to disclose such information in the Prospectus and other documents included in the registration dossier for the public offering of additional shares to increase the Company's charter capital.

2. Plan for the Use of Proceeds from the Offering

  - ✓ The BOD shall provide a detailed report to the next GMS on any adjustments to the use of the additional charter capital, if any.
- If, upon expiry of the offering period to existing shareholders in accordance with applicable regulations, the Company has not offered all the shares as planned, the GMS authorizes the BOD, depending on the actual circumstances, to implement the following measures:
  - ✓ Request an extension of the offering period to continue offering all remaining shares in compliance with applicable laws.
  - ✓ In addition, if the expected proceeds from the offering are not fully raised, the Company shall use alternative funding sources, such as bank loans, and/or other measures in accordance with applicable laws and the Company's internal regulations to implement its planned activities.

3. Approval of Measures to Ensure Compliance with Foreign Ownership Regulations

Pursuant to the Company's Charter and Official Letter No. 3861/UBCK-PTTT dated July 23, 2021, issued by the State Securities Commission regarding reporting on foreign ownership ratios, the maximum foreign ownership ratio in MST is 49%.

The GMS authorizes the BOD to approve a plan to ensure that the share issuance complies with foreign ownership ratio regulations.

4. Approval of Additional Securities Registration and Additional Listing of All Newly Issued Shares

All newly issued shares shall be additionally registered with the Vietnam Securities Depository and Clearing Corporation and additionally listed on the Stock Exchange.
